I support this bill#1 as it is being presented today in the form that was back in 2009, without the massive development proposed by H.R.I. As a public health nurse with a lot of experience dealing with the aftermath of hurricanes, I feel that It would be irresponsible and reckless to develop an area so lacking in infrastructure adequate to deal with a large population on a routine level, let alone during a natural disaster. The lack of a trauma center, hardened hurricane shelters, adequate police and fire stations, a crumbling little road, lack of a large back-up force of workers, heavy equipment and supplies(and a way to deliver them if we lose the road) including medications for diabetics and cardiac patients makes it crucial that the area in this plan remain agricultural, and no growth bounds be expanded.
